SOFTWARE ENGINEER

M.Sc. Computer Science graduate (2025) with strong skills in **Java, OOP, data structures, and MySQL**. Built real-world CRUD applications using JDBC with clean, modular code. Passionate about AI-augmented development tools like GitHub Copilot and eager to contribute to Cloud SaaS products as a Software Engineer, bringing strong problem-solving skills and a quick learning mindset.

TECHNICAL SKILLS

Languages	: Java (Core Java)
Core CS Concepts	: OOP, Data Structures, Algorithms, Collections, Exception Handling
Databases	: MySQL, SQL, JDBC
Web Tech	: HTML5, CSS3, JavaScript
Dev Tools	: Git, GitHub, Eclipse, VS Code
AI Tools	: Exploring GitHub Copilot, AI workflows

EDUCATION

Alagappa University	Karaikudi
M.Sc Computer Science 77.8%	Aug 2023 – May 2025
H.H. The Rajah’s College	Pudukkottai
Bachelor of Computer Application 86%	Aug 2020 – May 2023

PROJECTS

Student Management System	Java, Spring Boot, REST API, MySQL, Git	Source Code
- Designed and developed a Spring Boot REST API backend to manage student records with full CRUD operations (Add, View, Update, Delete) - Integrated Spring Data JPA with MySQL database for efficient, persistent data storage and retrieval - Implemented field-level validation and exception handling to eliminate duplicate records and ensure data integrity - Applied OOP principles and modular architecture for clean, maintainable, and scalable code - Managed source code and version history using Git & GitHub		
Voice Assistant	Python, SpeechRecognition, pyttsx3, NLP, Git	Source Code
- Developed a voice-driven automation tool using Python to recognize natural language speech commands and execute system-level tasks - Built a real-time speech-to-text and text-to-speech (TTS) pipeline using SpeechRecognition and pyttsx3 libraries - Integrated functionalities such as opening applications, performing web searches, and fetching system information - Applied basic NLP concepts and modular command-processing architecture for easy extension with additional intents - Managed source code and version history using Git & GitHub
